A CITY OF PLEASURE!

THE FUTURE

Health Resort

OF THE WESTERN CONTINENT.

Secure a Home in Carlsbad While Yet it May be Had at a Very Moderate Outlay.

Values are Daily Enhancing. Now is the Golden Opportunity. Fortune's Favors are Never Extended Twice.

CARLSBAD IS NOTED FOR ITS CELEBRATED

Mineral Springs,

The Healing Properties of its Waters having been pronounced by the best Chemists after a thorough analysis to be without rival.

Among other advantages possessed by Carlsbad to make it the

Pleasure Resort of Southern California,

And the best point for investment, its mineral waters will make it

The Resort of the Wealthy, the Pleasure-seekers and the Invalid.

Lots for Sale from \$175 to \$500.

One-third Cash; Balance in 6 and 12 months; or 5 per cent discount for Cash.

For Desired Information, Address

Carlsbad Land and Mineral Water Co.,

CARLSBAD, CALIFORNIA.

Or HENRY A. NELSON, Or DEXTER, GILBERT & CO.,
F street, near P. O., San Diego. 115 W First street, Los Angeles.

FOR SALE!

150 LOTS FOR \$150 Each

In Faucher's Highland Addition to

CARLSBAD.

This tract consists of 167 acres and only 160 lots in this large tract are for sale at \$150 each.

LIMITED

number will be put on market at \$200 each when prices will again be advanced. Terms: One third cash, one third in six months and balance in one year. A grand view of the Old Pacific City of Carlsbad, South Oceanside and Oceanside is obtained from every lot on the tract. My reasons for limiting the number of sales at these prices are that on this tract is the most beautiful and natural Hotel site on the coast and

I HEREBY AGREE

to have in course of erection before July 1888 a magnificent hotel, the cost of which has not yet been ascertained, but will undoubtedly be in the neighborhood of \$30,000 and be called "Highland Hotel," besides many other improvements which will greatly enhance the value of the tract.

For further particulars as to location, attractions and future see the Carlsbad Land and Mineral Water Co.'s ad, "A City of Pleasure" on the first page.

Postoffice Improvements.

The house committee on post-offices have ordered a favorable report on Chairman Blunt's bill providing for a general law for the erection of postoffice buildings. It provides for the appointment by the postoffice department of an architect and a superintendent of construction at a salary of \$4,000 per year. The postmaster-general is authorized in his discretion to construct buildings at any place at which the gross postal receipts for two years or more shall have exceeded \$30,000 annually. No building is to cost more than \$25,000. Appropriations of \$2,000,000 are made for the current year. It is estimated that there are fifteen hundred towns entitled to a building under this bill.

The Southern Pacific to Go to San Diego.

The question as to whether or not the Southern Pacific company would build a line to San Diego has been long a subject for discussion. The railroad people when questioned regarding their intentions have generally replied that they would probably build to San Diego sometime in the future. The announcement has finally been made that papers have been signed and delivered, transferring the Pomona and Elsinore road to the Southern Pacific company. The line is a direct one from Los Angeles to Elsinore, San Diego county. The other portion from Elsinore to San Diego, it is stated, is to be finally secured by the Southern Pacific people as soon as the present owners have settled some slight difficulties in the matter of securing the rights of way through private properties. The Pomona and Elsinore section, which is partly graded and ready for the rails, will be completed as soon as possible, and work on the remaining portion of the road to San Diego will be begun when the necessary arrangements and transfers have been made.

Storm Indications.

When oxen or sheep collect together as if they were seeking shelter, a storm may be expected.

Domestic animals stand with their heads from the coming storm.

Foxes barking at night indicate a coming storm.

Peafowls utter a loud cry before a storm, and select a low perch.

Wild geese flying over in great number indicate approaching storm.

When a heavy cloud comes up in the south-west and seems to settle back again, look out for a storm. Red clouds rising at sun-up indicate a storm.

A long strip of clouds called a salmon or Noah's Ark, east and west is a sign of stormy weather, but when it extends north and south it is a sign of dry weather.

If the clouds be of different heights, the sky being grayish or dirty blue, with hardly any wind stirring, the wind, however, changing from west to south, or sometimes southeast, without perceptibly increasing in force, expect storm.

The aurora, when very bright, indicates storm.

Coals becoming alternately bright and dim indicate approaching storm.

Fire always burns brighter and throws out more heat just before a storm.

It is said that blacksmiths select a stormy day in which to perform work that requires extra heat.

Soot burning on the back of a chimney indicates storm.

Distant sounds heard with distinctness during the day indicate storms.

Sound traveling far and wide, A stormy day will betide.

The weather usually moderates before a storm.

AURIFEROUS ADVANTAGES

Which Carlsbad Has a Just Claim To.

EXTENSIVE MINERAL DEPOSITS.

Good Assays and a Most Favorable Outlook—Several Locations Already Made.

That vast mineral wealth lies within the boundaries of San Diego county has been fully proven by developments that are constantly being made. Veins of rock containing gold, silver, copper, iron, tin, etc., are being worked in different sections, with rich returns to the owners, and it is claimed by those who have made this subject a study that before long ore deposits rivaling in richness and extent those of any in other parts of the State will be developed right at home. What wonder, then, that Carlsbad—rich in all other natural advantages—should share the prize? That she has done so is almost conclusively proven by the rich developments made in this vicinity within the past few weeks. As announced briefly in the last issue of the SEA LION, some of our citizens, experienced in mining matters, have been quietly prospecting for some time near town, but wisely refrained from exposing the scene of their labors, or the results obtained, until they were fully satisfied of the merits of the same. Becoming convinced that their discovery was a valuable and extensive one, they gave the benefit of their researches to the community in general, and now it is safe to say that hardly a resident of Carlsbad is without his "claim." The benefits that will immediately accrue to this town should the result of this find sustain present appearances will be great, as from its convenient situation and easy access to and from the mines it will naturally become the depot of supplies and shipment for that section.

THE FIRST LOCATION.

A. E. Barry, Lang Solander and F. D. Mitchell can claim the credit of first bringing this important matter to the attention of the public. As stated last week, they are the original discoverers, and as a consequence have secured what at first sight would appear to be the best location. Their claim embraces an area of 1500 by 600 feet and includes all of that portion of the section that has been prospected. In this connection it may be stated that this ground has been partially worked at some former period, as the shafts and drifts observable indicate. There are also fully 100 tons of ore, evidently sorted with great care and apparently very rich in minerals, lying near these excavations. This rock, of course, is claimed by the present owners. Silver predominates in the rock already tested.

THE NEXT LOCATION.

Adjoining the claim of the pioneers in this district, to the north, is that of the company comprising J. A. McCullough, Theo. Steinhilber, Frank and Ralph Patterson. This claim is of the same dimensions as the first one, but its course is a little different, as the locators have gone further to the east, in order to include a mound of higher altitude from which good croppings have been obtained. As in the first location, silver is the most abundant of the metals contained in the ore examined.

THE THIRD LOCATION.

A. J. Culver, E. M. Brass, H. Woolman, A. L. Clark and A. A. Hansen form the company owning the third claim. They have set their stakes at the southwesterly end of the first location, running thence southwesterly 1500 feet, with a uniform width of 350 feet. This part of the section has not been as fully prospected as the two first named, but the owners are confident of its merit from what has already been developed.

THE LANGENBACH SITE.

Due west and two miles nearer town is the Langenbach claim. The company comprises E. W., P. J. and E. L. Langenbach. Gold predominates in the rock already tested, although silver is plainly visible under the glass. The company will proceed at once to open up the mine, and will probably have one of the finest locations on the line of discovery.

AN EXPERT'S OPINION.

A gentleman representing a New Mexico mining company, and who

is an expert miner, visited the discovery this week, and was most favorably impressed with the indications developed. He gives it as his opinion that untold wealth lies buried in this locality. So confident is he of the value of the district that he will return early next week to explore it for the benefit of the company he is engaged by.

THE EASY ACCESS

of these mines is greatly in their favor. Situated about four miles north from Carlsbad, they can be reached from the town by an excellent road, over which the heaviest teams can be driven and the ore hauled from the works to our depot at a nominal cost, in the event of shipping. Then again, the Escondido branch of the California Southern Railroad runs within a mile of this district, and it would be an easy matter to connect it with that line by rail if desired. In fact, a project with that end in view is already contemplated.

THE ORE FOUND

bears indications of great richness, practical miners giving it as their opinion that it will run close to \$50 per ton. Silver is the most prominent metal discernible, although gold and other valuable metals are also markedly visible. We have it on first-class authority that with a smelter and reduction works established at San Diego, ore ranging from \$14 per ton upward can be profitably handled. If this be correct, the great revenue which may be derived from rock as rich as that already produced in this district is obvious, even when shipped away.

ENERGETIC MEASURES.

The companies already formed will begin at once to develop their claims, and a sufficient force of men will be put to work to determine the extent of the deposit. We hope ere long to be able to proclaim Carlsbad as the Leadville of California, without the climatic disadvantages of that famous region.

The Musical Union.

Mr. Gerhard Schutte's elegant residence was the scene of a most enjoyable entertainment last Tuesday evening. By invitation, the Carlsbad Musical Union, of which organization Miss Alma Schutte is a valued and accomplished member, assembled in the spacious parlors, and there rendered a well-selected programme in a faultless manner and which was highly appreciated by the admiring auditors. At its conclusion an innovation was introduced; a list of mirthful games, prepared by Miss Schutte and directed by that young lady in a perfect manner, was presented and participated in by all present, to their thorough enjoyment. The evening passed so pleasantly that it was long after midnight before the happy party dispersed. Among those present were noted: Mesdames Cramer, Langenbach, Faucher, Buntain, Haslitt, Kunze, Stone, Crain, Pratt and Clark; Misses Ida and Alma Kunze, Hattie and Paulina Lehn, Gertrude Woolman, Calla Frazier, E. Langenbach and Louise Bentley; Messrs. Clark, Langenbach, Crain, Buchanan, Carr, S. Wadsworth and Ralph Patterson. The Union has decided to hold its meetings at intervals of two weeks during the summer months, and the next one will consequently be held Tuesday evening, May 29th, at the residence of Mrs. J. D. Crain, when the following programme will be rendered:

Instrumental duet—Misses Pauline and Hattie Lehn.
Quartet—Mrs. Crain, Miss Ida Kunze, Messrs. Cramer and Langenbach.
Duet—Miss Langenbach and Mrs. Buntain.
Instrumental solo—Miss Gertrude Woolman.
Chorus—By the Union.

Close of School.

The term of the public school in this district came to a close last Monday. It was not intended by the teacher to have an exhibition, but the marked uniform advancement of the pupils made some display imperative, and a very enjoyable impromptu programme was the result. Songs, declamations, dialogues, etc., showed to advantage the intelligence and good training of the participants, all of whom acquitted themselves most creditably. A pleasant feature was the crowning of the May Queen, Miss Alma Kunze, who looked charming in her regal attire. After this ceremony the scholars and their parents and friends had a very enjoyable picnic on the school grounds. Miss M. I. Campbell, the efficient teacher, will depart for San Francisco next week, and has announced her intention not to resume control of the school upon its reopening. This is regrettable to parents and pupils alike, as by her assiduity and accomplishments the young lady has achieved great success in her profession. We hope she may reconsider her resolve.

HOME NEWS IN BRIEF.

Events of the Week in a Condensed Form.

—Chloridea.
—And sulphurets.
—Have you located?
—If not, do so at once.
—"Dips, spurs, angles," et id.
—"The Truthful Club" is a thing of the past.

—Prof. Snedecor is an authority upon pick points.

—An expert in ores and minerals is a great necessity around here just now.

—C. W. Street and wife, of San Diego, are guests at the Palma Hotel.

—Roses and many other beautiful flowers are in bloom in several gardens of our town.

—Just received a full assortment of ladies' French kid gloves, price \$1.25, at Irwin & Co.

—The pipe for the new sewer has arrived, and Contractor Snedecor is pushing the work energetically.

—Men's summer flannel coats and vests reduced from \$2.50 to \$1.75 at Irwin & Co., Oceanside.

—Volney Howard, Adjuster of the Imperial Fire Insurance Company, was in Carlsbad one day this week.

—A full assortment in ladies', misses', men's and boys' bathing suits just received by Irwin & Co., Oceanside.

—A warm welcome by her schoolmates was given Miss Ethel Carthy upon her return on Monday afternoon's train.

—Men's all-wool suits reduced from \$12.50 to \$8.50, from \$13.50 to \$10, from \$15 to \$12.50, at Irwin & Co., Oceanside.

—A. A. Hansen, Asst. Sec'y of the Carlsbad Land and Mineral Water Company, has returned from a trip to Los Angeles.

—Specimens of ore of exceeding richness, obtained at the newly-located mines, are exhibited in many public places in this town.

—Two carloads of dressed sandstone from the quarry of the Egan & Johnson Company, situated near Carlsbad, were shipped to San Diego one day this week.

—Sam Roberts has received "all the way from Pike" some choice cuttings of honeysuckle vines, of varied hues, which he has transplanted into his garden.

—South Oceanside is to have a school district within her jurisdiction. J. Chauncey Hayes has been to San Diego this week perfecting arrangements to this end.

—R. S. Buchanan and wife have returned to Carlsbad. The lady's health has been delicate during their absence, consequently they have come back to recuperate.

—Go to Irwin & Co., Oceanside, the one-price dry goods and clothing house. All goods marked in plain figures only, and everything is sold at San Francisco prices.

—The Encinitas Journal has passed into the hands of Scott Bros., gentlemen of ability and experience, who will materially improve that already valuable newspaper.

—The California Southern Railroad is putting in heavier ties and rails upon their road to San Diego. A gang of laborers has been working in Carlsbad and vicinity during the week.

—Some of the "smart Alicks" in this town are "away off" in their interpretation of the mining laws governing this State. We will publish a section or two for their edification next week.

—Repairs to the sloop Tempest have been completed, with the exception of painting, and she will be in better trim than before the accident when she is again launched upon the "briny."

—Merv. Kuntzelman deplores the loss of a valuable gold ring, set with rubies and pearls, and will liberally reward the finder upon its return. He is employed at the new hotel, where he can be seen during the day.

—J. M. Martin, of the San Marcos Herald, is particularly struck with Carlsbad, and again visited us on Saturday last, accompanied by his charming sister. Come often, partner, and be assured of a hearty welcome.

—We had prepared a sketch of a most enjoyable trip we made to Del Mar last Sunday, in company with J. Chauncey Hayes, Esq., and behind that gentleman's famous team of \$1500 "fliers," but the inexorable law of "space" crowds it out this issue.

—The great sale of real estate in Faucher's Highland Tract has been postponed until June 15th. This is a more suitable time of year. Matlock & Son, the most popular and successful real estate auctioneers in Los Angeles, will manage the sale, which insures its success. Look out for a big "ad." in next week's SEA LION.

—Nineteen members of the Ladies' Home Mission Society assembled

at the residence of Mrs. Patterson last Wednesday afternoon. This is a most worthy organization and is doing a vast deal of good. Its officers are: Mrs. Nettie Faucher, President; Mrs. Kate Stone, Vice-President; Miss Ida Frazier, Secretary; Mrs. Allie Buntain, Treasurer.

—J. A. Faucher and family have removed to their new home on the section of land recently located by Mr. Faucher near town. Though loth to lose their society, the host of friends of this charming family in our community unite in wishing them all the success which their industry and enterprise merit.

—We "got a move on us" this week and sent our paper to press in advance, so that the Terpsichorean devotees of this institution could enjoy the dance given at the Palma Hotel last evening. We will anticipate the event by saying that everyone was there, all had a splendid time, and as a result a corn doctor would find a remunerative field in this town at present.

—Mrs. William Carthy, wife of the urbane host of the Palma Hotel, accompanied by Miss Ethel, returned from a visit to Pomona and other places in Los Angeles county last Monday evening, and although enjoying the trip greatly, is pleased to be home again in beautiful Carlsbad. Mrs. Carthy brought some choice flowers and fruits with her as specimens of the fertility of the section visited.

"THE CARLSBAD."

The Great Caravanary Receiving Its Finishing Touches.

A visit to the big hotel on the terrace will reveal to the observer the effects of a well-directed industry. On every hand skilled mechanics—carpenters, painters, plasterers, plumbers, etc.—are busily employed putting the finishing touches upon one of the most extensive and ornamental edifices to be found anywhere. Foreman Culver informed the reporter that it would be a very short time now until our citizens will be regaled with the sight of scores of visiting strangers who have come to enjoy our climate and other advantages.

General Superintendent Frazier and Manager Miller have returned from Los Angeles, where they have been negotiating for the large stock of furniture, carpets, etc., to be placed in the hotel. We understand that San Diego has secured the principal contracts for supplying these goods, the dealers of the city of "bayclimate" outbidding their Los Angeles rivals by a considerable sum.

A cement sidewalk will be laid at once from the hotel to Washington street.

The main stairway leading from the carriage-way of the hotel to the first piazza has been completed. It is eighteen feet wide and very substantial.

Two large brick chimneys, sufficiently high to prevent fire or other inconvenience to that portion of the building, have been erected over the kitchen ranges.

Carlsbad Literary Society.

The following will be the programme of this popular organization for next Thursday evening. At the excellent performance given last Thursday evening the house was crowded, a fitting tribute to the general worth of the performance. The society is becoming more attractive every week:

Reading—John Richards.
Recitation—Olga Langenbach.
Song—Ethel Carthy.
Reading—D. D. Hanks.
Recitation—Willie Woolman.
Song—Alma Kunze, Ethel Carthy, Bertha Woolman.
Reading—Hattie Lehn.
Recitation—Harry Carden.
Duet—Misses Kunze and Schutte.
Reading—Geo. McCulloch.
Dances.
Dialogue—"A Row in a Mormon Family."

Solo—Ralph Patterson.
Reading—Mr. Carr.
Recitation—Lou Crain.
Reading—Stewart Solander.
Recitation—Jerome Place.
Quartet—Arranged by Mrs. Crain.
"Carlsbad Reflector"—Miss Langenbach, Miss Schutte and Mrs. Stone.
Reading—Sidney Wadsworth.
Reading—Hattie Patterson.
"Our Camping Trip"—Jack Ellis.

Should Be Appreciated.

Commencing Monday next, a private school will be opened in the schoolhouse for a two months' term. Miss Hattie Lehn, of this town, who is a graduate of Cobden (Ill.) High School, will instruct the youthful minds of this community, and we predict a great success for the young lady. The advantages of this school are apparent, as by its aid the pupils of the public school just closed will continue to advance in their studies instead of going backward, as is often the case, especially with the younger ones. We bespeak for Miss Lehn the encouragement her talents and energy deserve.

CARLSBAD

MINERAL WATER BATHS,

Hot and Cold.

Now Open to General Custom.

The reputation already achieved by these baths is world-wide and their remarkable curative powers remain unchallenged. Persons afflicted with

Rheumatism, Kidney Trouble, or any Chronic Disease

can do no better than take a course of the Wonderful Baths. Scores of Testimonials as to their worth can be obtained from residents in this town and vicinity, who have been entirely cured by their use.

Liberal Terms to Regular Customers.
